01

Hello

These are our brand guidelines, crafted as a set recipe to UCOOK. It includes our brand manifesto, identity breakdown and the use of our visual language system.

Our values drive us to make real connections with our audience. When we speak as UCOOK, we want people to get to know us - always take this into consideration when expressing our brand.

Our Mission

Food has the power to change the way we live.

At UCOOK, we're reinventing the way you eat and why you eat it, enabling you to make informed decisions that are good for the planet and good for you.

We are committed to making a positive impact on the food system by empowering local producers. In a world where change is necessary, we are striving to be significant.

Authentic Personality

Contemporary
Cutting edge of home cooking.

Unpretencious
Pleasantly simple and functional.

Conscientious
Ethical eating paired with responsibility.

Verbal overview:

Our voice is clear, simple and speaks to everyone. No big words or vague claims. We're trustworthy and approachable - if you knock on our door, we'll gladly let you in. We're confident in the utility of the content we're providing, and proud to be forerunners in our offering of it.

Identity

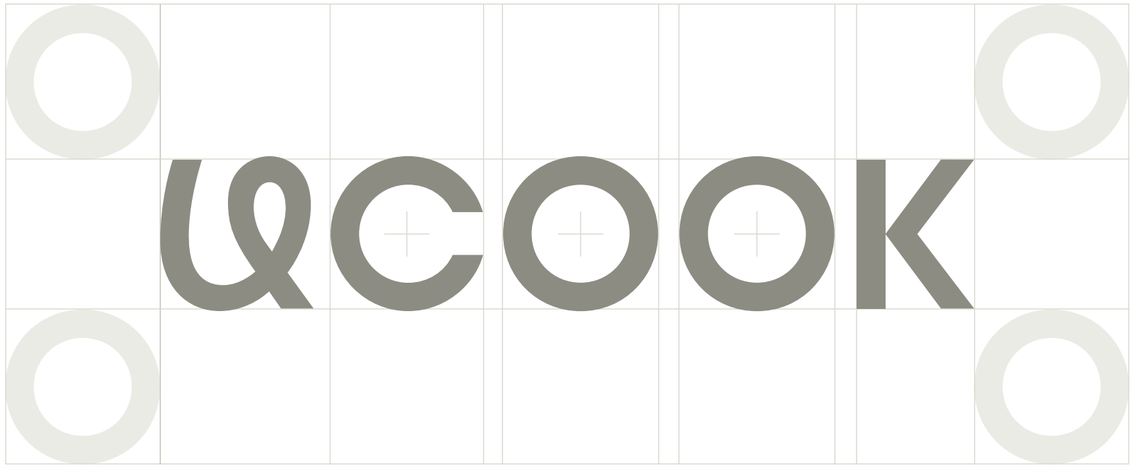
Anatomy
Lockup
Logomark
Slogan device
Applications

Logo Anatomy

The primary logo was designed with sans serif proportions, allowing it to feel modern, clear and approachable. Promoting an authentic voice, the logo embodies elements of strength and connection, combining the precision of culinary expertise together with the fun and playfull nature of food. In colour application, it is preffered in white, or respective brand colours. Always consider legibility and scale of the logo.

Guidelines indicate clear space. These areas must be kept free of other elements. The circular 'O' device indictes type and element alignment and boundaries.

Minimum required clear space is defined by the circular 'O' measurement device.



Min Width
86px | 10mm

(PLEASE REFER TO PAGES X - X
FOR APPLICATION GUIDES)

COOK

Logo Lockup

The UCOOK logo with its slogan is preferred to be used in the majority of design applications.

Depending on the design and spacial structure for different future applications, always consider legibility and scale of the logo. Never alter the slogan with additional type or affiliate elements. In colour application, it is preffered in white, or respective brand colours.

Guidelines indicate clear space. These areas must be kept free of other elements. The circular 'O' device indictes type and element alignment and boundaries.

Minimum required clear space is defined by the circular 'O' measurement device.

(PLEASE REFER TO PAGES X - X
FOR APPLICATION GUIDES)

Min Width
86px | 20mm

UCOOK
GOOD FOOD | GOOD PEOPLE

Logomark Device

The logomark was designed with specific proportions that allow it to feel balanced. The unique "U" conveys the individuality of UCOOK's consumers and their personal connection with food.

When applied in an inversed structure, within shapes or other elements, ensure the logomark is either centered within the space or along the border with its appropriate clear space. In colour application, it is preffered in white, or respective brand colours. Always consider legibility and scale of the logo.

Guidelines indicate clear space. These areas must be kept free of other elements. The circular 'O' device indictes type and element alignment and boundaries.

Minimum required clear space is defined by the circular 'O' measurement device.

(PLEASE REFER TO PAGES X - X
FOR APPLICATION GUIDES)

Min Width
30px | 8mm

Slogan Device

The slogan device is a secondary extension of the logo lockup, with a dynamic and fun application format. It is preferred to be used in a horizontal or vertical composition, but can be rotated 360° depending on the structure for different design applications.

It is never used with the logo lockup, but rather when the opportunity presents itself for segmentation of the identity system. In colour application, it is preffered in white, or respective brand colours. Always consider legibility and scale of the logo.

The circular 'O' device indicates type and element alignment and boundaries. However, due to the nature of this device, it doesn't always need to be restricted by the minimum required clear space.

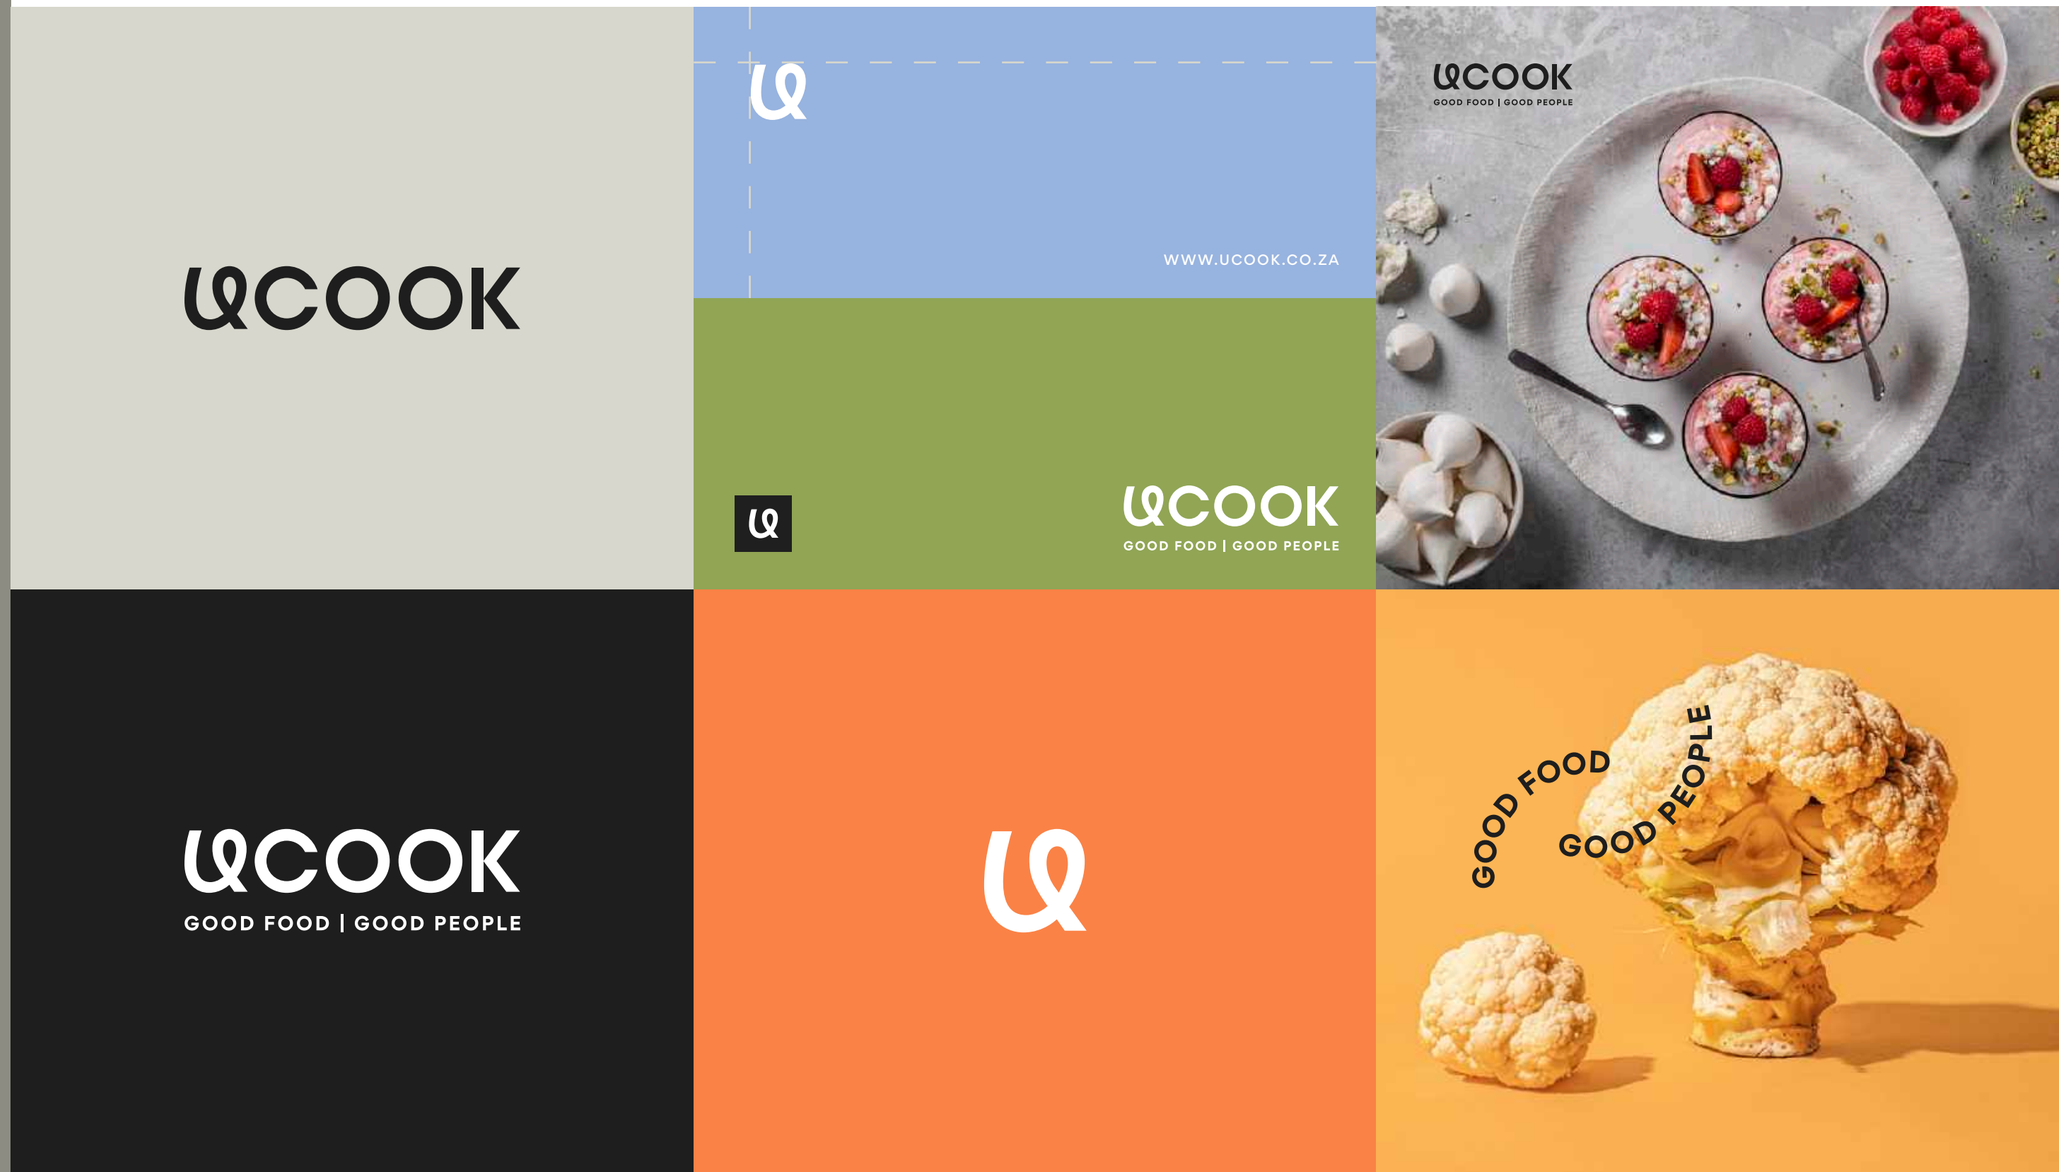
(PLEASE REFER TO PAGES X - X
FOR APPLICATION GUIDES)

Min Width
80px | 20mm

Application Instances

The UCOOK logo appears either in cast iron on white and reversed on black (or other colours). Do not mix dark application with various colours. If white application is used, please ensure the tone of the background colour or imagery is dark enough to ensure legibility. Please refer to incorrect lockup usage on the next page for more specifications.

Never use the various identity elements together, they are applied as separate brand devices. However, when the identity elements are split, ensure there is always a reference to the UCOOK brand, e.g. website link, somewhere on the design element at hand (page, packaging, etc).



Incorrect Usage

Always use the appropriate logo anatomy and avoid incorrect application of the examples shown here.

When working with affiliate brands, ensure that UCOOK and its brand DNA is never compromised and adheres to the appropriate requirements.

NEVER STRETCH THE LOGO, ALWAYS SCALE IN PROPORTION

NEVER OUTLINE THE LOGO OR USE IT WITH A STROKE

NEVER ROTATE THE LOGO, KEEP HORIZONTAL

NEVER PLACE INSIDE A COLOUR BLOCK

NO OPACITIES OR COMPROMISING WITH ODD COLOUR ELEMENTS/IMAGERY

NEVER CUT OR CROP THE LOGO

NEVER APPLY WHITE ON WHITE DROP SHADOW

NEVER CHANGE THE COLOUR (KEEP WITHIN BRAND COLOUR PALETTE)

NEVER APPLY A GRADIENT

NEVER PLACE OVER BUSY/PATTERN BACKGROUNDS

NEVER ALTER OR REPOSITION THE SLOGAN

NEVER FILL WITH A PATTERN OR IMAGE

Primary: Gordita

Gordita is a minimal sans serif typeface with a geometric foundation that has been built upon with modern details that result in an optically balanced, friendly typeface.

Gordita is UCOOK's primary typeface, providing a clean and simple feel to the brand's written communication.

Forms have been optically compensated to appear natural and purely geometric. Joints are slightly tapered and ink traps feature in heavier weights with the purpose of achieving maximum legibility.

Secondary: Utopia

Elegant and balanced, Utopia qualifies as a transitional serif typeface: one based on 18th- and early-19th-century ideals of classical design.

Utopia is UCOOK's secondary typeface, providing sophistication and sauve to the brand's written communication.

Modern advances in stroke detail and character shape make it ideal for versatile application. The typeface includes features such as ligatures and small capitals.

Tertiary: Aintonio

Aintonio is a stylish signature typeface with personal touch movement.

Aintonio is UCOOK's tertiary typeface, providing a playful and nostalgic element to the brand's written communication.

With handwritten character traits, the script creates natural forms with the purpose of achieving authentic and personalised messaging.

Pairing Systems

As part of an extension of the written brand language, the following sets can be used to create future pairing systems within UCOOK.

This paring system structure shows which fonts to combine and in which weights and cases (please note variables in glyphs). Different typographic executions can be achieved, while still retaining the UCOOK aesthetic. However, this is a rough guideline - every font should not be represented at the same time.

KITCHEN

Tricolore Quinoa Jumble

Our produce is sourced with the seasons and environment in mind.

WINE DEPOT

Ngeringa Syrah 'JE' 2016

OUR PRODUCE IS SOURCED WITH THE SEASONS AND ENVIRONMENT IN MIND.

AFFILIATE

NIPPY BUTTER CHICKEN

Our produce is sourced with the seasons and environment in mind.

BABY

apple & grape puree

Our produce is sourced with the seasons and environment in mind.

FROZEN

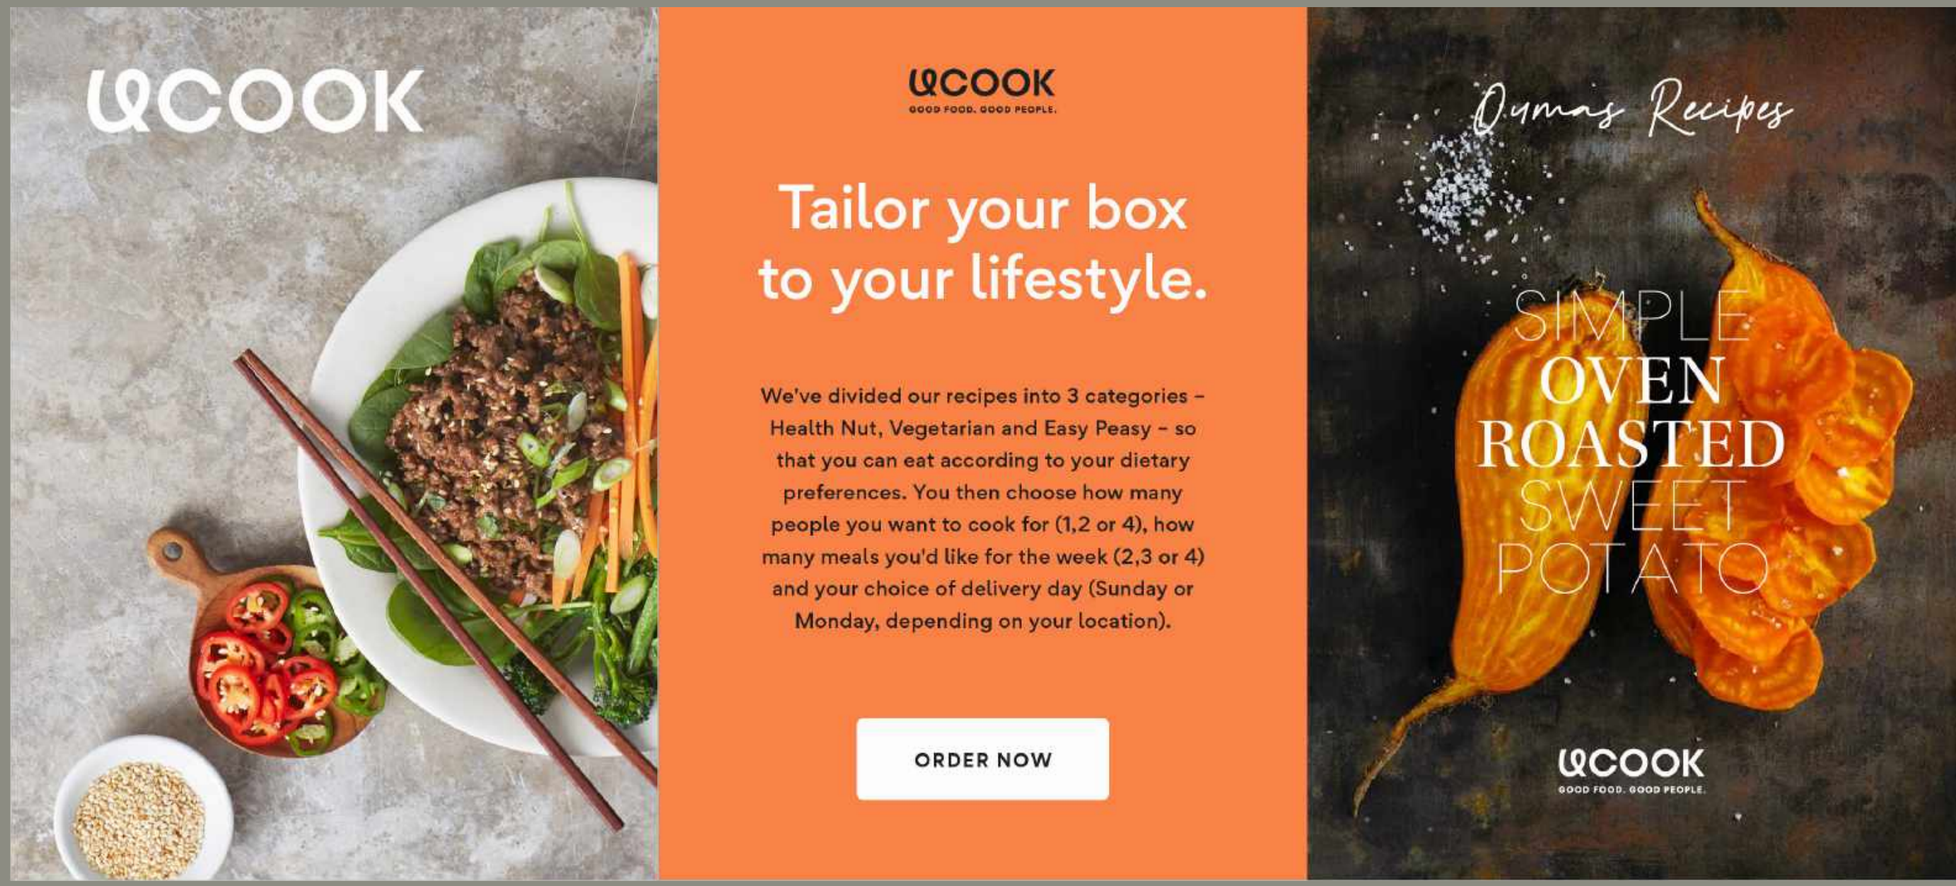
Chocolate Fudge Tart

Our produce is sourced with the seasons and environment in mind.

Pairing Systems

Example of the main strand or 'kitchen' extension of the brand language.

While adhering to UCOOK's typographic usage structure, the main aesthetic is balanced and friendly, while the secondary and tertiary fonts are used to create visual emphasis.



Pairing Systems

Example of a secondary strand or 'wine' extension of the brand language.

The aesthetic is reshuffled to feel more crafted and elegant, where again the secondary and tertiary f onts are used to create visual emphasis, adhering to UCOOK's typographic usage structure.

05

Colour

Core Palette
Usage Structure

Core Palette

The UCOOK colour palette is designed to feel fresh, tangible and elegant, while simultneously balancing an element of precision. Along with the brands' use of photography, aspects of natural ingredients and culinary expertise live well through the selection of vibrant colours. This palette should be used as a base to create dynamic environments, adapting to different age groups.

The colour palette also gives opportunity to align colours with selected product lines, creating a feeling of transparency and personalisation.

Usage Structure

To correctly incorporate the UCOOK brand personlity, a considered balance of brand colours should be applied.

Stone, Cast Iron and Carrot are our primary brand colours and should be allocated as such. Canola, Sprout and Frost are secondary colours, used to highlight or extend as additional design elements.

Our usage structure shows which colours to prioritize in compositions and in approximtely what amounts (please note tint and tone values). However, this serves as a guideline - every colour does not need to be represented at the same time or in the precise amount reflected here.

General Styling

When applying various ingredients of the UCOOK brand it is important to always create a well-balanced structure.

Our graphic language is image-heroic and must always reflect a fresh, crafted visual paired with a fair amount of colour and type. From written content to visual graphics, every segment should be sampled and digested with ease.

If instances arise where the use of photography can't achieve maximum impact, fall back to smart allocation of colour and graphic devices, with strong use of copy.

Fresh ingredients delivered to your door.

We like to keep it local, which is why we source our high-quality, organic ingredients from small-batch farmers.

A fresher future.

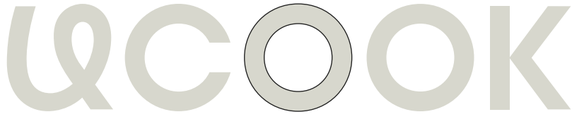
OLLIE SWART

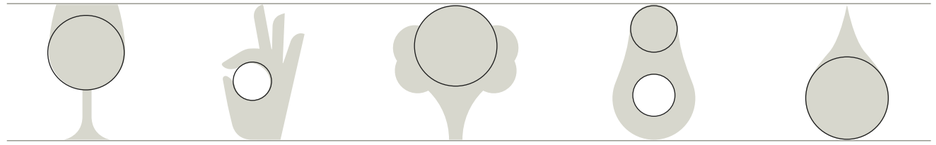
Our team of expert chefs create 9 new recipes weekly, plus 3 new Hall of Fame favourites for you to order and cook again. Plus, we partner with South Africa's best culinary talent to bring you exciting collaborations. This means you'll be constantly discovering new favourite dishes in a matter of minutes.

Icon Guidelines

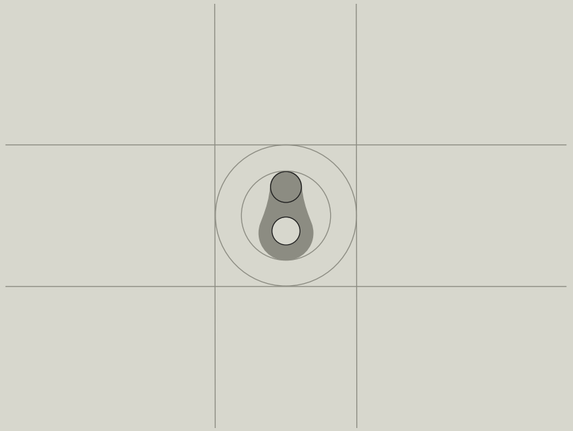
Our iconography style is solid, sharp and simple, derived through concept from our brand's circle element. Each icon is meant to represent a particular action or function. When revising or creating new icons it's important to keep them uncomplicted and refined.

When possible leve the spacial radius open. This will ensure an effortless look and feel. Following suit with the identity system, the iconography appears either in cast iron on white and reversed on black (or other colours).





Min Width
40px | 10mm



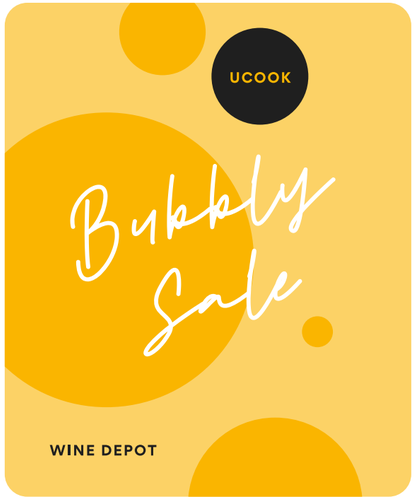
HEALTH NUT

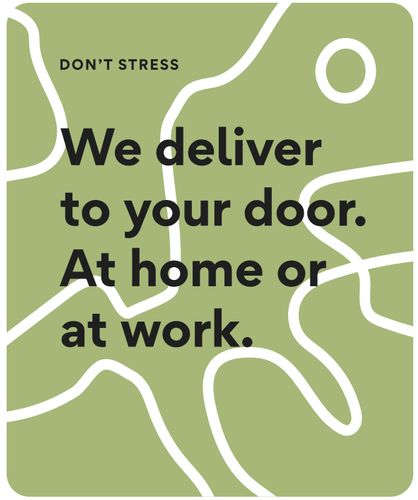
All of our Health Nut dishes contain a balance of protein, veg and good carbs, and are packed with both incredible flavour and vital nutrients. It's the category for you if you're looking to start healthier....

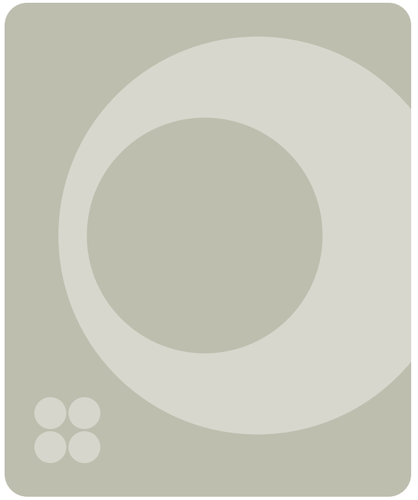
Line & Shape

Design elements such as line and shape should be used as secondary graphic extensions. Unnessecary applications of these graphics should be avoided - it should always aid in the messaging system, not overpower.

The following examples serve as a guideline on how line & shape can be respresented. Ingredients, table settings and delivery routes form good concetps and don't always have to be executed in a literal manner.







Pattern Device

The pattern build is a brand component used as an extension of the 'fun' quality of cooking. Shapes are built from the outline of UCOOK's fresh produce, playing on the concept of 'what's in the box'.

The style is solid, sharp and simple - easily traceable to adapt to various future subject matter and layouts. This graphic device should be used in minimal instances for emphasis only. It is not brand heroic, but should rather be seen as a recognizable attribute of UCOOK.

Pattern Application

Depending on the design execution at hand the following pattern constructs should be considered – this serves as a guideline, where the application can be altered to create various dynamic visuals. Colour should also be considered in this process, by aplpying the correct combination of contrast and tones. This can be allocated differently across print, digital and media platforms.

Scale
Enlarge or reduce components to create atmosphere.

Repeat
Create a single or set composition in a regular manner and produce repition and rythym.

Collage
Reshuffle components and assemble different forms, creating a new whole.
